Eligibility and Submission Requirements

Eligibility Requirements

- All project entries must be fabricated or detailed by a CISC BC Region Fabricator or Detailer Member and had been completed between January 1, 2008 and July 1, 2009.
- Projects must illustrate ingenuity and innovation in the use of structural steel or platework.
- Only one project will be selected from each category for an award (judges may cite one or two projects for Honourable Mention).
- Project entries outside BC will be accepted

Submission Requirements

- Further submission information and instructions, as well as all of the forms listed herein are available in electronic format at www.cisc-icca.ca/bcawards.

- An "Intention to Submit" form shall be completed and received by **October 1, 2009.**

Download a copy of the "Intention to Submit" form from our web site **www.cisc-icca.ca/bcawards**, complete the form electronically and email a copy to **dmcquillen@cisc-icca.ca**. or complete manually and fax back to 905-946-8574 .

Award Categories

Architectural

Steel Buildings or structures in which architectural considerations predominantly influence the design, particularly those with exposed steelwork. (All building types and bridges.)

Engineering

Steel structures in which engineering considerations and the efficient use of steel in unique applications are the predominant factor. (All building types and bridges.)

Sustainability

Steel structure in which steel has been used or re-used as part of a sustainable development project that aims to improve environmental impact of the structure by using innovative practices, standards and technologies.
