MONDAY, MAY 11

cisc icca
CANADIAN INSTITUTE OF STEEL CONSTRUCTION
INSTITUT CANADIEN DE LA CONSTRUCTION EN ACIER

IN COLLABORATION WITH

CRITM
vecteur de transformation métallique

The first day of the conference will aim to provide the industry with the latest updates on research conducted at all Quebec universities on steel. The CISC's Quebec region in collaboration with CRITM will be the intermediaries to ensure this link to industry.

TUESDAY, MAY 12

The second day of the conference organized by CISC Quebec will focus on the presentation of major projects using an integrated project approach.

The teams will present his projects: The Owner, the Architect, the Engineer, the Contractor, the Fabricator, the Detailer! Together, they will present their project from A to Z, how the team collaborated, the best decisions made, the result of their collaboration in solving challenges and achieving success.
